

## Growing Up in Ancient Israel Children in Material Culture and Biblical Texts

Kristine Henriksen Garroway

**The first expansive reference examining the texts and material culture related to children in ancient Israel**

*Growing Up in Ancient Israel* uses a child-centered methodology to investigate the world of children in ancient Israel. Where sources from ancient Israel are lacking, the book turns to cross-cultural materials from the ancient Near East as well as archaeological, anthropological, and ethnographic sources. Acknowledging that childhood is both biologically determined and culturally constructed, the book explores conception, birth, infancy, dangers in childhood, the growing child, dress, play, and death. To bridge the gap between the ancient world and today's world, Kristine Henriksen Garroway introduces examples from contemporary society to illustrate how the Hebrew Bible compares with a Western understanding of children and childhood.
