

Beyond the Texts An Archaeological Portrait of Ancient Israel and Judah

William G. Dever

A handbook for biblical scholars and historians of the
Ancient Near East

William G. Dever offers a welcome perspective on ancient Israel and Judah that prioritizes the archaeological remains to render history as it was—not as the biblical writers argue it should have been. Drawing from the most recent archaeological data as interpreted from a nontheological point of view and supplementing that data with biblical material only when it converges with the archaeological record, Dever analyzes all the evidence at hand to provide a new history of ancient Israel and Judah that is accessible to all interested readers.
