

## **Sourcebook for Ancient Mesopotamian Medicine**

**JoAnn Scurlock**

*An introductory guide for scholars and students of the ancient Near East and the history of medicine*

In this collection JoAnn Scurlock assembles and translates medical texts that provided instructions for ancient doctors and pharmacists. Scurlock unpacks the difficult, technical vocabulary that describes signs and symptoms as well as procedures and plants used in treatments. This fascinating material shines light on the development of medicine in the ancient Near East, yet these tablets were essentially inaccessible to anyone without an expertise in cuneiform. Scurlock's work fills this gap by providing a key resource for teaching and research.
