Exploring Zechariah, Volume 1 The Development of Zechariah and Its Role within the Twelve

Mark J. Boda

A decade of research on Zechariah

This first volume of Mark J. Boda's two-volume set on Zechariah showcases a series of studies on the development of Zechariah as a book and its role within the development and rhetoric of the Book of the Twelve. It focuses on the composition of Zechariah; the relationships between Zech 1–8 and Zech 9–14 and among Zechariah, Haggai, and Malachi; and the placement of Zechariah within the Book of the Twelve. The collection of these slightly revised previously published essays leads readers along the argument that Boda has been developing over the past decade.

Features:

- Examination of the role that the final section of the Book of the Twelve played in drawing the corpus together into its final form
- Articles drawn from a variety of journals
- Ten essays that represent advances into Book of the Twelve research

Mark J. Boda is Professor of Old Testament at McMaster Divinity College. He is the author of ten books, including *The Book of Zechariah* (Eerdmans) and *Haggai and Zechariah Research: A Bibliographic Survey* (Deo) and editor of seventeen volumes.
